Full Stack Developer – Karolium (PaaS and SaaS)

Description
About Us

ITOrizon is a global consulting and technology company that helps enterprises design,
implement, and optimize complex supply chain and digital transformation initiatives.
Headquartered in Atlanta, USA, with offices in India (Bengaluru) and the UAE (Sharjah), we
partner with global clients across retail, manufacturing, logistics, and distribution sectors.

We combine deep domain expertise with modern technology to deliver practical, scalable
solutions. Our teams work across strategy, implementation, and managed services —
helping organizations adopt leading platforms such as Oracle, Manhattan, Blue Yonder,
and our next-generation composable enterprise platform, Karolium.

Responsibilities

- Design, develop, and re-engineer complex application components across multiple
  platforms.
- Develop and support internal ITOrizon applications used globally, ensuring agility
  and scalability.
- Own the maintenance and continuous improvement of critical business applications.
- Translate business requirements into technical solutions through user stories and
  design specifications.
- Perform unit and integration testing, troubleshoot issues, and provide production
  support.
- Collaborate with cross-functional teams to deliver high-quality, reliable, and secure applications.
- Drive innovation by continuously improving application architecture, performance, and usability.

Qualifications

- Bachelor's degree in computer science, Engineering, or related technical field.
- Equivalent practical experience will also be considered
- **5+** years of hands-on experience in application development using **Java Spring
  Framework (Spring Boot, Spring Core, Hibernate).**
- Strong proficiency in **Core Java, J2EE, RESTful & SOAP Web Services.**
- Frontend expertise with **JavaScript, AngularJS/ReactJS, HTML5, CSS3,**
