Senior QA Manager – PaaS Platform

Description About Us

ITOrizon is a global consulting and technology company that helps enterprises design, implement, and optimize complex supply chain and digital transformation initiatives. Headquartered in Atlanta, USA, with offices in India (Bengaluru) and the UAE (Sharjah), we partner with global clients across retail, manufacturing, logistics, and distribution sectors.

We combine deep domain expertise with modern technology to deliver practical, scalable solutions. Our teams work across strategy, implementation, and managed services — helping organizations adopt leading platforms such as Oracle, Manhattan, Blue Yonder, and our next generation composable enterprise platform, Karolium.

Role Overview

As the Senior QA Manager, you will own the quality strategy and execution for our WMS PaaS product. You'll lead automation initiatives, manage UAT cycles, and collaborate with cross-functional teams to deliver a robust, high-performing platform. This role demands hands-on leadership, strategic thinking, and a deep understanding of enterprise PaaS testing.

Responsibilities

- Define and lead QA strategy across functional, regression, integration, performance and Chaos testing
- Own end-to-end UAT planning, execution, and stakeholder alignment for PaaS releases
- Drive automation initiatives using modern frameworks and tools; EndTest experience is a plus
- Collaborate with Product, Engineering, and Delivery teams to ensure test coverage and release readiness
- Build and manage a high-performing QA team; mentor and upskill junior testers
- Establish and monitor quality metrics, defect trends, and release health indicators
- Ensure compliance with enterprise-grade standards for reliability, scalability, and usability
- Continuously improve QA processes, tools, and documentation

Qualifications

Hiring organization
ITOrizon

Employment Type
Full-time

Experience
10+ years

Role
Senior Manager

Industry
PaaS | Warehouse Management |
ERP | Enterprise Tech

Job Location
Bangalore, India, India

Date posted
November 7, 2025

- 10+ years of QA experience in PaaS, ERP, or WMS environments
- Proven track record of owning UAT cycles for enterprise PaaS products
- Strong expertise in test automation frameworks and scripting languages
- Hands-on experience with automation tools; EndTest knowledge is a strong advantage
- Deep understanding of warehouse operations and ERP workflows
- Excellent leadership, communication, and stakeholder management skills
- Familiarity with Agile methodologies and tools like JIRA, Confluence, TestRail, etc.

Good to have:

- Experience with API testing, performance testing, and CI/CD integration
- Exposure to cloud-native platforms and multi-tenant PaaS architecture
- Knowledge of compliance and security testing standards

Why Join Us?

- Lead QA for a mission-critical PaaS product used by global enterprises
- Drive innovation in automation and quality engineering
- Be part of a collaborative, growth-focused culture in our Bangalore HQ
- Competitive compensation, leadership opportunities, and career advancement

How to Apply:

If you're ready to own quality at scale and shape the future of enterprise WMS PaaS testing, we'd love to hear from you.
