Senior UI Lead/Architect – Platform

Description

About Us:

ITOrizon is a global consulting and technology company that helps enterprises design, implement, and optimize complex supply chain and digital transformation initiatives. Headquartered in Atlanta, USA, with offices in India (Bengaluru) and the UAE (Sharjah), we partner with global clients across retail, manufacturing, logistics, and distribution sectors.

We combine deep domain expertise with modern technology to deliver practical, scalable solutions. Our teams work across strategy, implementation, and managed services — helping organizations adopt leading platforms such as Oracle, Manhattan, Blue Yonder, and our next-generation composable enterprise platform, Karolium.

Role Overview:

As the Senior UI Lead, you will own the front-end architecture and development strategy for our Zero-Code PaaS platform. You'll lead a team of UI engineers, mentor junior developers, and work hands-on to build complex, high-performing interfaces using Angular and modern UI frameworks. This role demands deep technical expertise, leadership, and a passion for delivering seamless user experiences across multiple channels.

Responsibilities

- Lead UI architecture and development for the Zero-Code PaaS platform
- Build and optimize complex, high-performance UIs for web, mobile, and device interfaces
- Work hands-on with Angular and other modern UI frameworks and testing tools
- Collaborate with Product, UX, and Backend teams to deliver cohesive, scalable solutions
- Mentor and guide junior engineers; conduct code reviews and promote best practices
- Ensure cross-browser compatibility, responsive design, and accessibility compliance
- Drive performance optimization, modular design, and reusable component libraries
- Stay current with UI trends, tools, and technologies to continuously improve the stack
- Go beyond Web and Mobile and build UI for small screens, augmented reality

Hiring organization

ITOrizon

Employment Type

Full-time

Experience

10+ Years

Role Category

Senior

Role

Lead/Architect

Industry

Cloud Infrastructure | SaaS | PaaS | Enterprise Tech

Job Location

Bangalore, India

Date posted

November 6, 2025

Qualifications

- 10+ years of experience in UI development, with at least 5 years in a lead role
- Proven expertise in Angular (latest versions) and hands-on experience with UI testing frameworks (e.g., Jasmine, Karma, Cypress)
- Strong portfolio of complex, high-performing UI projects across multiple channels
- Experience building platforms or reusable UI frameworks for enterprise applications
- Deep understanding of responsive design, performance tuning, and accessibility standards
- Excellent leadership, communication, and team-building skills
- Familiarity with CI/CD pipelines and version control (Git)

Good to have:

- Experience with mobile-first design and hybrid frameworks (e.g., Ionic, Flutter)
- Exposure to no-code/low-code platforms and dynamic UI rendering
- Knowledge of design systems and component-driven development (e.g., Storybook)

Why Join Us?

- Lead UI innovation for a cutting-edge Zero-Code PaaS platform
- Work with a passionate team solving real-world enterprise challenges
- Be part of a design-forward, engineering-driven culture in our Bangalore HQ
- Competitive compensation, leadership opportunities, and career growth

How to Apply:

If you're ready to architect the future of enterprise UI and mentor the next generation of front-end talent, we'd love to hear from you.
