Senior User Experience (UX) Specialist – SaaS WMS ERP and Zero-Code PaaS

Description About Us

ITOrizon is a global consulting and technology company that helps enterprises design, implement, and optimize complex supply chain and digital transformation initiatives. Headquartered in Atlanta, USA, with offices in India (Bengaluru) and the UAE (Sharjah), we partner with global clients across retail, manufacturing, logistics, and distribution sectors.

We combine deep domain expertise with modern technology to deliver practical, scalable solutions. Our teams work across strategy, implementation, and managed services — helping organizations adopt leading platforms such as Oracle, Manhattan, Blue Yonder, and our next-generation composable enterprise platform, Karolium.

Role: Senior User Experience (UX) Specialist

As a Senior UX Specialist, you'll lead the design strategy and execution for our Warehouse Management ERP and Zero-Code PaaS platforms. You'll work closely with product managers, engineers, and business stakeholders to craft intuitive, scalable, and delightful user experiences across complex workflows and multi-modal interfaces.

Responsibilities

- Own end-to-end UX strategy for SaaS WMS ERP and Zero-Code PaaS platforms
- Design seamless experiences across web, mobile, device interfaces, APIs, and instrument-integrated workflows
- Conduct user research, persona development, and usability testing to inform design decisions
- Translate complex business logic into intuitive UI/UX flows for enterprise users
- Collaborate with cross-functional teams to ensure design consistency and accessibility
- Create wireframes, prototypes, and high-fidelity mock-ups using industry standard tools
- Advocate for user-centric design principles and champion UX best practices
- Analyse usage data and feedback to continuously improve product usability and engagement

Qualifications

Hiring organization
ITOrizon

Employment Type
Full-time

Experience
10+ years

Role
Senior UX Specialist

Industry
SaaS | ERP | PaaS | Supply Chain |
No-Code Platforms

Job Location
Bangalore, India, India

Date posted
November 6, 2025

- 10+ years of UX design experience in enterprise SaaS, ERP, or PaaS environments
- Strong portfolio showcasing complex UX work across web, mobile, and device interfaces
- Experience designing for API-driven and instrument-integrated platforms
- Deep understanding of warehouse operations, supply chain workflows, or ERP systems
- Proficiency in design tools like Figma, Sketch, Adobe XD, and prototyping platforms
- Strong communication, stakeholder management, and problem-solving skills
- Familiarity with accessibility standards, responsive design, and design systems

Good to Have:

- Experience with no-code/low-code platforms and user-configurable interfaces
- Exposure to IoT, device telemetry, or instrument interfacing in UX contexts
- Knowledge of front-end technologies (HTML, CSS, JS) for better collaboration with developers

Why Join Us?

- Shape the UX of mission-critical platforms used by global enterprises
- Work on cutting-edge SaaS and PaaS products with real-world impact
- Be part of a collaborative, design-driven culture in our Bangalore HQ
- Competitive compensation, flexible work culture, and career growth

How to Apply:

If you're ready to lead innovation in warehouse management and drive SaaS success across global markets, we'd love to hear from you.
