## Supply Chain Management (SCM) Consultant

### Description

#### About Us

ITOrizon is a global consulting and technology company that helps enterprises design, implement, and optimize complex supply chain and digital transformation initiatives. Headquartered in Atlanta, USA, with offices in India (Bengaluru & Trichy) and the UAE (Sharjah), we partner with global clients across retail, manufacturing, logistics, and distribution sectors.

We combine deep domain expertise with modern technology to deliver practical, scalable solutions. Our teams work across strategy, implementation, and managed services — helping organizations adopt leading platforms such as Oracle, Manhattan, Blue Yonder, and our next-generation composable enterprise platform, Karolium.

#### Role Overview

We are seeking an SCM Consultant with strong consulting, analytical, and technical skills to support supply chain transformation and enterprise platform initiatives. The role requires a solid understanding of supply chain processes along with hands-on exposure to ERP or supply chain applications, data analysis, and solution configuration.

You will work closely with business stakeholders and technical teams to analyze supply chain processes, support solution design, and drive implementation outcomes for global clients.

#### Key Responsibilities

- Analyze and document supply chain business processes and requirements
- Support configuration and implementation of SCM / ERP modules (WMS, TMS, Planning, Procurement, Inventory, Finance, HCM, or Order management)
- Working experience in implementation/ Support on Oracle/ Manhattan / Blue Yonder / other SCM /ERP Applications.
- Translate business needs into functional specifications and solution designs
- Perform data analysis to support supply chain optimization and decision-making
- Prepare process flows, functional design documents, and test scenarios
- Participate in workshops, solution walkthroughs, and user discussions
- Support testing, validation, and deployment activities
  
- Collaborate with technical teams on integrations, data, and system behavior
- Provide functional support during implementation and stabilization phases

#### Required Skills & Experience

- 3+ years in SCM consulting, ERP consulting, or supply chain analyst roles
- Understanding of core supply chain processes (plan, source, make, deliver)
- Experience with ERP or supply chain platforms (Oracle, Manh, Blue Yonder,
